Report Narrative			
<p>On March 15, 2025, HSI Harlingen BEST Maritime Group was conducting immigration enforcement operations while working with the South Padre Island Police Department (SPI-PD). Around 0040 hours HSI Special Agents were assisting SPI-PD control traffic at the intersection of [REDACTED] the site of a major vehicle accident resulting in multiple injuries. Special Agents were assisting in re-directing traffic from [REDACTED]. A Blue Ford 4-door vehicle was observed approaching the area where special agents and local law enforcement were re-directing traffic. As the vehicle got closer to the special agents the driver failed to follow instructions and attempted to continue onto [REDACTED]. Multiple officers gave verbal commands to the occupants to stop, the driver of the vehicle slowed to a stop, and at this point agents surrounded the vehicle and verbally commanded the driver to exit the vehicle. The driver accelerated forward, striking a HSI special agent who wound up on the hood of the vehicle. Upon observing this, HSI Group Supervisory Special Agent utilized his government issued service weapon, discharging multiple rounds at the driver through the open driver's side window. The vehicle came to a stop and both driver and passenger were immediately secured. HSI special agents rendered medical aid to the driver who was hit by the discharged rounds. The paramedics being already present at the scene of the accident took over administering first aid to the driver. The subject was transported to Valley Regional Medical Center in Brownsville, Texas, where he was later pronounced deceased. The passenger, identified as [REDACTED], was taken into custody by SPI-PD pending charges. [REDACTED] identified the deceased as [REDACTED] of San Antonio, Texas. Both the driver and passenger are United States citizens. The Texas Department of Public Safety Ranger Division arrived on scene and initiated an investigation into the Felony Motor Vehicle Assault and the officer involved shooting. The special agent who was struck was taken to an area hospital for treatment of a knee injury and was later released. Group Supervisor was taken to area hospital and was medically cleared.</p> <p>No property damage was reported.          Timely notifications were made to the ICE Joint Intelligence Operations Center, OPR, and Domestic Operations.          The Texas Department of Public Safety Rangers Division will be the primary investigative agency into the incident.</p> <p>Document reviewed and approved by DSAC [REDACTED] for distribution.</p>
